Two Itineraries to Choose From; Exuma Cays Land & Sea Park & Tiger Beach

Exuma Cays Land & Sea Park

Throughout the week aboard the **Bahamas Aggressor** This protected area is one of the world's most successful marine parks with an area of 176 square miles consisting of an array of more than 350 small islands and cays. The crystal-clear tropical Atlantic pours over the deep cuts between the cays and constantly shifting sand bars. Waters are thick with coral reefs that are alive with every imaginable ocean critter from the living jewels – angelfish and butterfly fish – to the charismatic food-chain toppers like grouper and barracuda – right down to the tiniest living invertebrates. Night diving allows guests to experience an entirely different group of critters and bevy of behaviors not visible during the day.

The Bahamas and her Out Islands offer a distinct blend of international glamour and tropical ease. The islands and cays sprawl across nearly 100,000 square miles of ocean, beginning at the northern point east of Palm Beach, Florida and spanning practically 750 miles to the southeast where there come inside 50 miles of Cuba and Haiti.

WHERE ARE THE BAHAMAS?

The islands of The Bahamas are sprinkled over 100,000 square miles of ocean starting just 50 miles off the coast of Florida. The archipelago is an ecological oasis featuring 2,000 breathtaking islands and cays that boasts the clearest water on the planet. Incredible marine diversity is found right beside breathtaking white and pink sand.

Scuba divers travel to find three things: dramatic walls, lush coral reefs and exciting animal encounters - and the Bahama Islands offer all this! Warm, turquoise crystal-clear waters and drop-offs close to shore make these islands a diver's dream. Mysterious blue holes and caverns, shipwrecks and vibrant living reefs, soaring wall dives and thrilling shark encounters all await both novice and experienced divers.

ITINERARY – Tiger Beach

Dancer Fleet is excited to offer special charters to Tiger Beach. This trip is an exploration of the remote areas around the West End of Grand Bahama Island. This is a dedicated liveaboard trip with up to 5 dives per day offered. The west end area is rarely visited by guests and is home to many creatures – both large (sharks and dolphins) and small (grouper, snapper, assorted other reef fish). At least one afternoon during the trip will be dedicated to a dive at the area know as "Tiger Beach" where we will try to attract sharks using a "scent triangle" filled with bait. Both Caribbean Reef Sharks and Tiger Sharks are known to frequent the area. Please note: All shark interactions on Dancer Fleet yachts are natural, passive and observational in style. The Dancer Fleet does not actively feed sharks nor chum the waters. Night dives are not offered on the site of Tiger Beach.
