Solmar V Sample Itinerary

DAY 1: Departure from Cabo San Lucas about 4 p.m. to San Benedicto Island.

DAY 2: Arrival at San Benedicto about 1-2 p.m. (crossing takes 22-24 hours) rest of the afternoon is spent diving.

DAY 3: Day is normally spent diving around San Benedicto and considering weather possibilities for a crossing to Roca Partida. After sunset boat departs to Socorro Islands - crossing takes 4-5 hours. On occasion if weather looks good we might decide to try Roca before Socorro.

DAY 4: Arrival Socorro Island early a.m. then quick check in at Navy Base for clearance. Most of this day is spent diving around Socorro Island. If conditions are good here or it is humpback whale season we might stay another day but usually we depart back to either San Benedicto or Roca Partida after sunset.

DAY 5: Arrival early a.m. to San Benedicto or Roca Partida, with diving all day.

DAY 6, 7: These days are spent diving numerous sites around San Benedicto and/or Roca Partida depending on weather and if we have been able to get to Roca Partida previously. Both islands known for most of the large animal encounters on our trips. Departure after a full day of diving on day 7 back to Cabo.

DAY 8: Arrival to Cabo after a 22+ hour crossing, depending on weather conditions, which means the boat usually arrives after sunset on this day. Guests overnight in port and disembark the next morning after breakfast onboard. Our dock has a great location near town for those who want to get off and stretch their legs or visit the local night spots.

DAY 9: All clients must disembark after breakfast no later than 9 a.m. Our crew will help you with your bags and in arranging airport transportation.

This is a general itinerary that is adjusted on a trip by trip basis according to weather and marine life. Having dived this area since 1992, our crew and boat are familiar with the changing conditions and knowledge to maximize your BIG animal experience.
